The Directors of Armour Energy Limited (Armour; ASX:AJQ) are pleased to announce that further to the ASX announcement of 21 November 2016, Armour has now executed definitive agreements with leading private equity and alternative asset manager, M.H. Carnegie & Co Pty Ltd (**MH Carnegie**) for a staged investment of up to \$18.25m worth of Convertible Notes (**Convertible Notes**) to be issued by Armour as part of the previously announced capital raising program of up to \$40 million.

MH Carnegie, DGR Global Limited, Armour Directors Nick Mather and Stephen Bizzell and Armour management have today subscribed for in aggregate approximately \$13.3 million worth of Convertible Notes. These Convertible Notes subscriptions are part of a recapitalisation program Armour is currently implementing to fund the re-start of gas production from Armour's Kincora oil and gas Project on the Roma Shelf in Queensland and to refinance existing debt, creditors and working capital.

Convertible Note Issue

MH Carnegie will be a lead investor in a multi tranche Convertible Note issue by the Company to raise up to \$35 million. The Convertible Note issue is being Lead Managed and arranged by Bizzell Capital Partners Pty Ltd. The arrangements with MH Carnegie are for investment by funds managed by it, and / or its nominees.

M.H. Carnegie & Co is a leading venture capital, private equity and alternative asset manager based in Sydney Australia, established by Mark Carnegie in 2010. M.H. Carnegie & Co manages direct investments on behalf of institutional, wholesale and high net worth investors with approximately A\$500 million in committed capital across several funds, including the Carnegie Private Opportunities Funds 1 and 2, the Carnegie Innovation Funds 1 and 2 and the Australian Pub Fund.

Under the agreed terms, the MH Carnegie Convertible Notes subscription may total up to \$18.25 million and will be subscribed for in several tranches:

- An initial tranche of \$2.5 million has now been subscribed for by MHC Fund Services 2A Pty Ltd as trustee for Carnegie Private Opportunities Fund No. 2A with subscription funds received by Armour today;
- A further tranche of \$5.0 million upon satisfaction of certain further conditions including pipeline access agreements and recommissioning milestones as detailed in attached Appendix B;
- A first right of refusal to subscribe for up to 25% of Convertible Notes to be issued by Armour beyond \$22 million worth of Convertible Notes issuances. This further tranche of Convertible Notes that may be issued by Armour is for up to an additional \$3 million of Convertible Notes and therefore MH Carnegie will have the first right of refusal to subscribe for up to a further \$750,000 worth of Convertible Notes; and
- A further optional tranche of up to \$10.0 million (Armour may restrict MH Carnegie's additional investment in this tranche to \$5.0 million in certain circumstances).

The principal terms of the Convertible Notes to be issued by Armour are as follows:

Issue Amount:	Up to \$35 million
Issue Price:	Face value of \$0.11 per Convertible Note
Interest Rate:	15% per annum
Interest Payments:	Interest paid half yearly in arrears and the interest may be paid in certain circumstances at Armour's election by the issue of further Convertible Notes
Maturity Date:	30 September 2019

- Conversion Terms: Convertible at any time at the Convertible Note holder's election into one ordinary share in Armour subject to usual adjustment mechanisms in certain circumstances
- Security: The Convertible Notes will be secured over all assets of Armour and will have equal ranking security proportionally with the existing DGR Global Ltd Bridging Finance Facility

Further details of the terms of issue of the Convertible Notes are contained in the attached Appendix A.

MH Carnegie will have a right to early redemption of the funds they have subscribed for Convertible Notes in the event certain conditions are subsequently not met or are not waived by them. These early redemption rights are contained in the Convertible Notes Terms of Issue in the attached Appendix A.

Armour's largest shareholder DGR Global Limited have now subscribed for an initial \$9.4 million worth of Convertible Notes, in part repayment of the DGR Global Bridging Finance Facility following receipt of shareholder approvals at Armour's Annual General Meeting (AGM) this week. Shareholder approval was obtained for DGR Global to subscribe for up to an additional \$1.5 million worth of Convertible Notes beyond their initial \$9.4 million commitment, and under the terms of the shareholder approval obtained, DGR Global will have until 14 January 2017 to elect to subscribe for the additional \$1.5 million worth of Convertible Notes.

Entities associated with Armour Directors Nick Mather and Stephen Bizzell have subscribed for \$500,000 worth of Convertible Notes following receipt of shareholder approvals obtained at Armour's AGM this week. Shareholder approval was obtained for Mr Mather and Mr Bizzell to each subscribe for up to \$1 million worth of Convertible Notes and under the terms of the shareholder approval obtained, they will have until 14 January 2017 to elect to subscribe for the additional \$500,000 worth of Convertible Notes each.

Armour's management team have also shown strong support for the capital raising program with entities related to Armour's management team including the Acting CEO, CFO, Company Secretary and key operational management having subscribed for approximately \$400,000 worth of Convertible Notes in aggregate.

The Convertible Notes subscriptions made today by MH Carnegie, DGR Global, and entities related to Nick Mather, Stephen Bizzell and Armour management total approximately \$13.3 million. An Appendix 3B – New Issue Announcement will be released later today following allotment of the Convertible Notes to these parties.

Pro-rata Entitlement Offer & Over Allotment Facility

As previously announced, as part of the capital raising initiatives, Armour will also undertake a pro-rata non-renounceable entitlement offer of ordinary shares to existing shareholders on a 1 for 6 entitlement basis at an issue price of 7.6c per share to raise approximately \$4.05 million (Entitlement Offer).

There will also be, separate and distinct from the Entitlement Offer, an overallotment facility available to sophisticated and professional investors who are sub-underwriters of the Entitlement Offer (**Overallotment Facility**). The Overallotment Facility will seek to raise up to a further \$1,000,000 (before costs).

The Entitlement Offer is to be fully underwritten by Bizzell Capital Partners Pty Ltd, an entity associated with Armour Director Stephen Bizzell.

Armour's largest shareholder, DGR Global Ltd, intends to subscribe for up to \$1 million in the Entitlement Offer, pursuant to making a firm commitment to subscribe for its pro-rata entitlement and by making a further sub-underwriting commitment. This subscription amount is expected to be via the conversion of the debt owing to DGR Global under its DGR Global Bridging Finance Facility. Armour's Chairman, Nick Mather, will also be sub-underwriting part of the Entitlement Offer.

Further details of the proposed Entitlement Offer including the offer timetable will be separately announced shortly.

Use of Funds

The net proceeds from the issue of Convertible Notes, the Entitlement Offer and the Over Allotment Facility will be primarily used to fund Armour's on-going development of the Kincora field assets, to refinance existing debt facilities, and general working capital.

Commentary regarding Capital Raising Program

Roger Cressey, Acting CEO, commented: "We are very pleased to have closed on the initial Convertible Note subscription from MH Carnegie and that they have chosen to invest in Armour. MH Carnegie's focus and expertise is in the provision of expansion capital to some of Australia's most successful companies and we believe Armour has the potential to be another of those companies."

Armour's Executive Chairman, Mr Nick Mather, added: "With oil production recently commenced from the Emu Apple field and planning well progressed for the recommencement of gas production and the funding now being put in place to enable execution of the re-start work programs, Armour is well positioned to make a successful transition from an exploration to production company at a time of significant gas demand growth both domestically and internationally."

4. Interest

4.1 Notes bear Interest

Each Note shall bear Interest at the Interest Rate on its Face Value which subject to clause 4.5, is payable by the Company in accordance with these Terms of Issue.

4.2 Interest calculated

Interest shall accrue daily on the basis of a 365 day year from the Issue Date until the Maturity Date, unless the Note is Redeemed or Converted before the Maturity Date in accordance with these Terms of Issue. Subject to clause 4.5, Interest shall be payable by the Company in arrears in respect of each Interest Period on each Interest Payment Date.

4.3 Interest Record Date

Notwithstanding clause 4.2, the entitlement to be paid Interest on an Interest Payment Date shall only accrue to those persons registered in the Register as Holders on the relevant Interest Record Date.

4.4 Interest payable

Interest calculated in accordance with clause 4.2 shall be paid by the Company to the person entitled to the Interest (determined by clause 4.3) no later than 20 Business Days after the relevant Interest Payment Date. In the event that the Company has not paid Interest as required by this clause 4.4 or as contemplated under clause 4.5, then further Interest shall accrue at the Overdue Rate in accordance with clause 4.6.

4.5 Issue of Shares in lieu of Interest payment

- (a) Subject to clause 4.5(e), the Company may elect, at its discretion to issue further Notes (the **Interest Notes**) at the Face Value in lieu of any Interest due on an Interest Payment Date (the **Interest Notes Value**), and the issue of those Interest Notes will be in full and final satisfaction of the Interest

otherwise due and payable on the relevant Interest Payment Date, up to the Interest Notes Value. Any Interest Notes will be issued on the same terms and conditions as all other Notes, save for Notes issued to the Placement Note Holders, which shall be, and have the benefit of the rights and entitlements attaching to, Placement Notes.

- (b) Upon the Company making the election under clause 4.5(a), the Company will:
- (c) Determine the whole number of Interest Notes which will be paid to the Holder in accordance with clause 4.5(d) and subscribe for on behalf of, and issue to, the Holder that number of Notes.
- (d) The number of Interest Notes that will be issued in accordance with clause 4.5(a) will be so many Shares as is determined in accordance with the following formula:
$$A = B/C$$

Where:

A = the number of Interest Notes to be issued in lieu of Interest payable on any Interest Payment Date (rounded up to the nearest whole number),

B = the amount of Interest due on the relevant Interest Payment Date that the Company elects to pay by issuing Interest Notes, and

C = \$0.11 (being the Issue Price/Face Value per Note).
- (e) Subject to the Placement Note Holders holding at least 68,181,818 Placement Notes at the relevant time, where the Company elects to issue Interest Notes in lieu of any Interest due on any Interest Payment Date other than the 31 March 2017 or 30 September 2017, then the Placement Note Holder Manager may elect that the Company does not issue Interest Notes to them in lieu of any Interest owing to them at that time, but rather that the Company must (subject to the balance of this clause) pay the amount of Interest due to them on the relevant Interest Payment Date in Immediately Available Funds. The Company shall then be obliged to pay that Interest in Immediately Available Funds on the relevant Interest Payment Date unless the Company can prove to the Placement Note Holder Manager's satisfaction (acting reasonably), that payment of that Interest in Immediately Available Funds would result in the Company not having sufficient cash reserves to meet the Company's budgeted Approved Project Expenditure for the next 12 month period when expenditure on New Business Development Opportunities is excluded.

For the purposes of this clause:

- (1) **Approved Project Expenditure** means any expenditure on the Company's:
 - (A) Kincora project assets;
 - (B) corporate administration and overheads; and
 - (C) other existing project interests to the extent of Government imposed minimum expenditure requirements (the Issuer will use all reasonable endeavours to minimize these commitments).
- (2) **New Business Development Opportunities** expenditure is expenditure on projects that are not included in Approved Project Expenditure.

4.6 Overdue Rate

- (a) Without limiting any of the Trustee's or any Holder's rights under this deed, the Terms of Issue or under any Security, the Company must pay interest at the Overdue Rate on each amount (including Interest) which is not paid when due under this deed (**Overdue Amount**).
- (b) Interest on any Overdue Amount accrues daily from and including the day when the amount first becomes due until the date of actual payment and in each case interest may be capitalised by the Trustee at the end of each thirty day period after the due date.

5. Conversion

5.1 Conversion Notice

- (a) Subject to this clause 5, a Holder may request Conversion of all or part of the Notes held by it by giving a Conversion Notice to the Company at any time during the Conversion Period.
- (b) A request for Conversion under clause 5.1(a) must be for at least, the lesser of the number of Notes which have an aggregate Face Value of \$50,000 or the balance of the relevant Holders holding of Notes.
- (c) Once given by a Holder, a Conversion Notice cannot be withdrawn without the written consent of the Company, which it may choose to provide at any time (and any such consent may either be given in writing to the Holder, or in the case of a consent applying to all Holders or a class of Holders generally, by notice to ASX). If a Conversion Notice is withdrawn in accordance with this clause 5.1(c), it must not be acted upon and will be of no further force or effect despite any other provisions in this clause 5.
- (d) A Conversion Notice must be accompanied by such evidence of the authority of the person signing it as is reasonably acceptable to the Company and may be treated by the Company as not being a valid

Conversion Notice unless and until such evidence is actually received by the Company.

- (e) A Conversion Notice must include:
 - (1) such information as may be required by the Company in relation to the Holder's voting power in the Company to enable the Company to determine the maximum number of Ordinary Shares that the Holder is able to acquire on the Conversion Date without contravening section 606 of the Corporations Act (or without exceeding such lesser percentage voting power in the Company as the Holder may specify in the Conversion Notice as being the percentage voting power that it does not wish to exceed as a result of Conversion of the Notes which are subject to the Conversion Notice) (the **Maximum Number**); and
 - (2) a warranty that the information referred to in clause 5.1(e)(1) is correct and the Company may rely on such information without further enquiry (or, if it so chooses, may require additional substantiation of such information).
- (f) If on the Conversion Date in respect of a Conversion Notice the Company determines in good faith, that the number of Ordinary Shares that would be required to be issued as a result of the Conversion of the Notes the subject of the Conversion Notice exceeds the Maximum Number (the **Balance Shares**), then the Company will Convert that number of the Notes that is the Maximum Number and:
 - (1) the issue of the Balance Shares will be subject to Shareholder Approval and the Company will use its reasonable endeavour to have Shareholder Approval granted at the next general meeting of the Company (which must be held as soon as possible and in any within 40 Business Days of the relevant Conversion Date); or
 - (2) if Shareholder Approval is not obtained for the issue of the Balance Shares,
 - (A) the Conversion Notice will be deemed to relate only to the maximum number of those Notes as can be Converted into in a number of Ordinary Shares that does not exceed the Maximum Number; and
 - (B) the balance of the Notes will be treated as having never been the subject of a Conversion Notice.

- (g) A Holder must not deal with, transfer, dispose of or encumber any Notes the subject of a Conversion Notice once that Conversion Notice has been given. Subject to the Corporations Act, the Listing Rules and the ASX Settlement Operating Rules, the Company may refuse to register a transfer of any Notes the subject of a Conversion Notice and may arrange for the Notes to be subject to a holding lock or make other arrangements to ensure that the Notes are not dealt with by the Holder.
- (h) Where the Company has received a valid Conversion Notice in respect of any particular Notes, any additional Conversion Notice subsequently received will be taken to apply only to the Notes which were not the subject of the prior Conversion Notice. The Directors may apply such adjustments (if any) as the Directors consider to be reasonably necessary to reflect this.
- (i) If the Company issues a Redemption Notice then a Holder may not give a Conversion Notice in respect of any Notes to be Redeemed pursuant to the Redemption Notice after the Conversion Cut-off Time prior to the specified Redemption Date, unless the Company fails to Redeem the Notes on that date in accordance with the applicable Redemption Notice, in which case the Holder may give a Conversion Notice at any time prior to the Redemption of its Notes.
- (j) A Conversion Notice may be given by Holder subject to the fulfilment of one or conditions precedent (**Conditional Conversion Notice**), and such a Conditional Conversion Notice will not have any force or effect until such time as the conditions precedent to which it is subject have been fulfilled. For the avoidance of doubt a Conditional Conversion Notice may be withdrawn at any time prior to the fulfilment of the conditions precedent to which it is subject.

5.2 Payment of Interest on Conversion

- (a) If a Holder elects to Convert Notes in accordance with this clause 5:
 - (1) on a date being an Interest Payment Date, the Company will pay to the Holder an amount of Interest being:
 - (A) all Interest owing on that Interest Payment Date;
 - (B) all accrued and Unpaid Interest; and
 - (2) on a day that falls between Interest Payment Dates, then because interest is payable in arrears, on the next Interest Payment Date immediately following the relevant Conversion Date, the Company

will pay to the Holder an amount of Interest calculated in accordance with the following formula:

$$R = (I/180 \times MP)$$

Where

- R = the amount of Interest to be paid by the Company;
- I = the total amount of Interest which would have been payable to that Holder in respect of the relevant Notes on the Interest Payment Date following the Conversion Date, had the Notes not been Converted; and
- MP = the number of days commencing on the Interest Payment Date which immediately preceded the date of Conversion and ending on the Conversion Date.

5.3 Conversion process

- (a) Where a Note is to be Converted under these Terms of Issue, on the Conversion Date the Company must cause:
- (1) to be issued and allotted to the relevant Holder the number of Ordinary Shares equal to the number of Notes the subject of the relevant Conversion Notice (the **Conversion Ratio**) (subject to amendments to the Conversion Ratio from time to time in accordance with clauses 5.4 to 5.6);
 - (2) the Notes the subject of the Conversion Notice to be cancelled; and
 - (3) the Holder to be entered into the register of members of the Company as the holder of Ordinary Shares issued under clause 5.3(a)(1).
- (b) By delivering a Conversion Notice, the relevant Holder irrevocably and unconditionally:
- (1) directs that the Company issue the number of Shares equal to the number of Notes the subject of the Conversion Notice, and acknowledges and agrees that it has no right to further payment in respect of the Face Value of the Notes that are to be Converted; and
 - (2) consents to be a member of the Company and agrees to be bound by the constitution of the Company.
- (c) Any issue of Shares under this clause 5.3 will have effect on and from, and will be deemed to have been made on, the Conversion Date.
- (d) Shares issued on Conversion must rank equally with all other fully paid Shares other than in respect of any dividend or other entitlement for which the applicable record date falls prior to the Conversion Date.

- (e) Following the issue of Shares in accordance with this clause 5, the Company must:
- (1) as soon as practicable, apply for quotation for the Shares on the ASX and do all things reasonably necessary to ensure that the Shares are quoted as soon as practicable on such terms and conditions as are usual for quotation of securities;
 - (2) within 30 days of the Conversion Date, provide ASX with a notice in relation to the Shares in accordance with section 708A(5)(e) and which complies with section 708A(6) of the Corporations Act (**Cleansing Notice**); and
 - (3) take all steps to procure the delivery to the person to whom the Shares have been issued, a holding statement evidencing that the Shares have been issued and allotted to that person with effect from the Conversion Date.

5.4 Adjustments to Conversion Ratio for pro rata issue

If at any time prior to the earlier to occur of Conversion, Redemption or Maturity Date of any Note, the Company makes a pro rata offer (excluding a bonus issue) to Shareholders, the Conversion Ratio will be adjusted using the formula as follows:

$$NR = OR + \frac{E[P - (S+O)]}{N+1}$$

Where:

NR = the new Conversion Ratio of the Notes.

OR = the old Conversion Ratio of the Note prior to the pro rata offer.

E = the number of shares into which one Note is Convertible.

P = average market price per share weighted by reference to volume of the underlying Shares during the 5 trading days ending on the day before the ex-rights date or ex-entitlements date.

S = the subscription price of a share under the pro rata issue.

O = the dividend due but not yet paid on the existing underlying shares (except those to be issued under the pro rata issue).

N = the number of shares with rights or entitlements that must be held to receive a right to 1 new share.

5.5 Adjustments to Conversion Ratio for bonus issue

If a bonus issue of shares is made by the Company, then:

- (a) the number of shares issued to each Holder on Conversion will be increased by the number of bonus shares that a Holder would have received if the Note had been exercised prior to the record date for the bonus issue; and
- (b) no change will be made to the Conversion Ratio.

5.6 Adjustments to Conversion Ratio for reorganisation of capital

- (a) The Company may only reorganise its capital:
 - (1) in accordance with the Listing Rules; and
 - (2) if, in respect of the Notes, the number of Notes or the Face Value, or both, is reorganised so that the Holders will not receive a benefit that Shareholders do not receive.
- (b) This clause does not prevent a rounding up of the number of shares to be received on Conversion if the rounding up is approved at the meeting of shareholders which approves the reorganisation.
- (c) Unless the Listing Rules require otherwise, the Conversion Ratio must be adjusted as follows:
 - (1) Reduction in capital

If the issued capital of the Company is reduced, the entitlement of a Holder to Convert its Notes to shares at the Conversion Ratio will be reduced in the same proportion and manner as the issued capital is so reduced (subject to any provisions with respect to the rounding of entitlements as may be sanctioned by the meeting of the members of the Company approving the reduction of capital) but in all other respects the Conversion Rights will remain unchanged.
 - (2) Consolidation of capital

If the issued capital of the Company is consolidated, the entitlement of a Noteholder to Convert its Notes to shares at the Conversion Ratio will be reduced in the same proportion and manner as the issued capital is so consolidated (subject to any provisions with respect to the rounding of entitlements as may be sanctioned by the meeting of the members of the Company approving the consolidation of capital) but in all other respects the Conversion Rights will remain unchanged.
 - (3) Subdivision of capital

If the issued capital of the Company is subdivided, the entitlement of a Holder to Convert its Notes to shares at the Conversion Ratio will be increased in the same proportion and manner as the issued capital is so subdivided (subject to any provisions with respect to

the rounding of entitlements as may be sanctioned by the meeting of the members of the Company approving the subdivision of capital) but in all other respects the Conversion Rights will remain unchanged.

- (d) If the Company reorganises its capital so that the Conversion Ratio or the Face Value or both are adjusted in accordance with this clause, the Company must advise the Trustee and the Holders of the adjustment.

5.7 Determination and notification of adjustments

- (a) The Company must promptly determine all adjustments to the Conversion Ratio required under clauses 5.4 to 5.6 and must promptly notify ASX of that determination.
- (b) The Company's determination is, in the absence of manifest error, final and binding on the Note Trustee and each Holder.

5.8 Cancellation of Notes on Conversion

On Conversion of Notes in accordance with this clause 5, those Notes shall, on such Conversion, be cancelled and may not be reissued.

6. Redemption and purchase

6.1 Redemption on Event of Default

Upon the occurrence of an Event of Default, the Company must Redeem each Note for its Redemption Amount if the Note Trustee or a Placement Note Holder gives the Company a notice in writing within 45 days of the Event of Default requiring the Notes to be Redeemed.

6.2 Redemption on Maturity Date

- (a) Subject to these Terms of Issue, all Notes held by Holders on the Maturity Date which:
 - (1) have not been otherwise Redeemed or Converted in accordance with these Terms of Issue; and

- (d) For the purposes of this clause 6.2, the maximum number of Notes that a Holder is entitled to have Redeemed as at the Maturity Date is that Holder's Noteholding Balance.

6.3 Redemption on Company Redemption Event

- (a) Subject to these Terms of Issue and specifically, the Company complying with this clause 6.3, the Company may Redeem all (but not some) of the Notes at any time for their Redemption Amount upon the occurrence of a Takeover Event occurs (**Company Redemption Event**).
- (b) If the Company elects to exercise its redemption rights in connection with a Company Redemption Event, the Company must send to Holders on the Register on the date of the Company Redemption Event, the Redemption Event Advice as soon as is reasonably practicable after the happening of the Company Redemption Event.
- (c) The Company may within 20 Business Days of the date of issue of the Redemption Event Advice to Holders, provide notice in writing to all of the Holders (**Company Redemption Event Notice**) providing that the Company intends to Redeem all of the Notes on issue as at the date of provided in the Company Redemption Event Notice to the Holder.

than 40 Business Days after providing the Company Redemption Event Notice to Holders.

- (e) Notwithstanding the issue of the Company Redemption Event Notice, a Holder may give a Conversion Notice in respect of some or all of its Notes which are subject to the Company Redemption Event Notice up to the date which is 15 Business Days following the date the Company provided the Company Redemption Event Notice (or such later date as the Company may agree with the relevant Holder), and only Notes for which Conversion Notices have not been so given will be Redeemed pursuant to the Company Redemption Event.
