

## Armour Energy Limited

25 June 2013

### Management Change

### Mr Robbert de Weijer Appointed Chief Executive Officer

#### HIGHLIGHTS

- **Appointment of Mr Robbert de Weijer as Chief Executive Officer from 8 July 2013 replacing Mr Phil McNamara,**
- **Mr de Weijer was most recently Chief Executive Officer for Dart Energy, Australia. Previously Chief Operating Officer, Arrow Energy after 20 year career with Shell International, managing operations in Europe, Middle East, Asia**

The Board of Directors of Armour Energy Ltd (ASX: AJQ, the Company) is pleased to announce the appointment of Mr Robbert de Weijer as Chief Executive Officer, effective as at 8 July 2013.

Mr de Weijer's early career was with Shell International managing operations in Europe, the Middle East and Asia culminating in operational leadership of Shell's North Sea assets including 53 offshore gas platforms, 2 major onshore gas terminals, 1,500 Shell and contractor staff and capital and operating budgets in excess of US\$1.6 billion per annum.

Mr de Weijer was seconded by Shell to be Chief Operating Officer for Arrow Energy Ltd, a fast growing Coal Seam Gas company that at the time had operations in Australia, India, China, Vietnam and Indonesia. Arrow Energy was acquired by Shell and Petrochina for \$3.5 billion in 2010. Whilst at Arrow Mr de Weijer was instrumental in the company achieving a number of major project milestones during a period of rapid organizational expansion, including substantial reserves upgrades, increasing gas production, and improvements in drilling and development activities and safety performance.

Mr de Weijer's most recent role was as Chief Executive Officer (Australia) for Dart Energy Ltd. Armour Energy Chairman, Nick Mather commented: "Mr de Weijer is a very experienced international oil and gas executive with a successful operational management history in high volume field operations at both exploration and development stages and in the delivery of significant improvements in costs and project delivery performance. Robbert has a proven track record for creating capable, motivated and delivery-focused teams which will be essential in driving forward our aggressive exploration, appraisal and development agenda.

The Board would like to thank the outgoing CEO, Mr Phil McNamara for his contribution to Armour's success to date, including securing the strong tenement foothold that Armour has in Queensland and the Northern Territory and establishing a strong resource base for the company as it enters its next stages of appraisal and development."

On behalf of the board

Karl Schlobohm  
Company Secretary

#### About Armour Energy

Armour Energy is focused on the discovery and development of world class gas and associated liquids resources in an extensive and recently recognised hydrocarbon province in northern Australia. This region has only recently had its shale potential identified by Armour Energy. The domestic and global demand for gas, combined with the new shale extractive technologies and experienced personnel, provides Armour with an extraordinary opportunity to define and ultimately develop a new liquids rich gas province.

Armour Energy's permit areas are characterised by low population densities, cooperative stakeholders and aspects of the natural environment suited to the exploration and development of a future gas and liquids province. Armour places considerable importance on close liaison with traditional owners and all stakeholders.

Armour Energy is focusing on the exploration of the McArthur, South Nicholson and Georgina Basins in the Northern Territory and Queensland, and in the onshore Gippsland Basin in Victoria in joint venture with Lakes Oil, for gas and associated petroleum liquids.

The Board of the Company includes four past Directors of Arrow Energy, and the same expansive approach to exploration and development that drove Arrow's evolution is planned for Armour Energy. The Company's technical team includes a range of industry experts and seasoned professionals who have been selected to support the Board and the CEO in our goal to build Armour Energy into a significant gas exploration and development company.
